Overview

Date: 25-30 Sep. 2016
Venue: DCC (Daejeon Convention Center), Daejeon, Korea.
http://www.dcckorea.or.kr
Host: KSAS (The Korean Society for Aeronautical & Space Sciences)
http://www.ksas.or.kr

Congress venue: DCC
- One of the most popular and conveniently located conference centers in Korea.

Easy Accessibility

- Incheon International Airport ↔ Daejeon
  - KTX high speed train: 1hr 50min, Limousine: 2hr 30min
- Seoul ↔ Daejeon
  - KTX high speed train: 1hr, Car: 1hr 40min
- Cheongju International Airport ↔ Daejeon
  - Car: 30min

Local Organizing Committee Chair, Prof. Youdan Kim
Seoul National University, 1 Gwanak-ro, Gwanak, Seoul, Korea

Hosted by KSAS
The Korean Society for Aeronautical & Space Sciences

KOREA

Shining with a Balance of the Old and New

- Cultural Lore and Artistic Flair, Korea: There are many tourists’ destinations in Korea where visitors fully enjoy the scenic natural environment and the fragrance of long history.
- The traditional cultural programs and tasty Hansik (Korean cuisine)
- Hallyu, or the Korean Wave, is going out to the whole world beyond Asia.
- Korea Tourist Service http://english.visitkorea.or.kr

DAEJEON

Daejeon is welcoming you!

- City of Science and Technology, especially Korea’s Aerospace Technology
  - KARI (Korea Aerospace Research Institute), ADD (Agency for Defense Development), KAI (Korea Aerospace Industries, Ltd.), Korean Air R&D Center and more.
- Full of attractions & festivals
  - Yuseong Spa, Eco-healing bare-foot walking, Ginseng Festival, Baekjae Cultural Land, temple stay (Magoksa and Sudeoksa near Daejeon), and a variety of exceptional sights and foods.
- Geographically located in the heart of the nation and functions as the nation’s transportation hub. You can easily get to anywhere of Korea with public transportation.

Introduction to ICAS

ICAS (the International Council of the Aeronautical Sciences) was established in 1957 as a non-government, non-profit scientific organization with the mission to advance knowledge and facilitate collaboration in aeronautics. Today ICAS brings together 32 states from five continents. Among ICAS members are major world aerospace companies. One of the most important activities of ICAS is the organization of biennial international congresses. Since the first ICAS congress in Madrid in 1958, it has grown to become the world’s pre-eminent forum for aeronautics which attracts well-known specialists and leaders of top aerospace research centers, companies and universities. Up-to-date scientific achievements in aeronautics, priority projects to design new generation aircraft, development of research facilities and improvement of service system constitute important topics of the Congress and reflect the aspirations of the international aeronautical community.

Welcoming Address

“I strongly believe that year of 2016 is the time for the Korean Society for Aeronautical and Space Sciences (KSAS) to host ICAS and reinforce its contribution to the international aeronautical society. I assure you that KSAS will make ICAS 2016 Congress in Daejeon the most successful event with full support from Daejeon City Government and related organizations.”

President of the KSAS, Prof. Kyung-Tae, Lee

Keypoints

Delegates will have a great opportunity
- to promote international aeronautical sciences community,
- to make a personal and technical network with leading edge aeronautical experts in academia, government, and industry,
- to experience Korea’s dynamic nature, culture and food as well as technical progress in aeronautical sciences in the city of Korea’s science and technology, Daejeon.
